Report back from the

2nd International
World Equilibrium Conference
In Havana, Cuba

Organized by the United Nations Educational Scientific and Cultural Organization (UNESCO) and the institute of Jose Marti Studies on the 155th anniversary of the birth of Jose Marti- one of Cuba's most revered revolutionaries and thinkers. More than 400 intellectuals, politicians, academics, writers, journalists and students from 35 countries attended the 2nd International Conference for World Equilibrium to discuss the most pressing issue today: the crisis of humanity created by imperialism and the importance of the Battle of Ideas and creating a better world.
